

St Marychurch Pre-school

Equipment and Resources Policy

Statement of intent

We believe the high quality of early years care and education are promoted by providing children with safe, secure and developmentally appropriate resources, toys and equipment.

Aim

We aim to provide children with resources and equipment that help to consolidate and extend their knowledge, skills, interests and aptitudes and comply with the requirements of the health and safety legislation.

Methods

In order to achieve this aim we:

- Provide play equipment and resources that are safe and – where applicable – conform to the BSEN safety standards or Toys (Safety) Regulations (2011).
- Provide a sufficient quantity of equipment and resources for the number of children.
- Provide resources that promote all areas of children's learning and development, which may be child or adult led.
- Select books, equipment and resources that promote positive images of people of all colours, cultures and abilities, are non-discriminatory and avoid racial and gender stereotyping.
- Provide play equipment and resources that promote continuity and progression, provide sufficient challenge and meet the needs and interest of all children.
- Provide made, natural and recycled materials that are clean, in good condition and safe for the children to use.
- Provide furniture that is suitable for children and furniture that is suitable for adults.
- Store and display resources and equipment where children can independently choose and select them where possible.
- Regularly check all resources and equipment that are available at each session and ensure they are put away at the end of each session. We repair and clean, or replace, any unsafe, worn out, dirty or damaged equipment.
- Keep an inventory of resources and equipment.
- Provide adequate insurance cover for the settings' resources and equipment.
- Plan the provision of activities and appropriate resources so that a balance of familiar equipment and resources and new exciting challenges is offered.
- Practitioners risk assess daily and hold two in-depth annual risk assessments per year (June/November).
